

A GREAT RESOURCE FROM CIITS

SAS Curriculum Pathways is an award-winning resource made available for free through CIITS. It provides resources that can be utilized at middle/high school levels in the subject areas of: ELA, mathematics, science, social studies and Spanish. Resources include lessons, activities, tutorials, videos, real-world examples, images, animations, interactive tools, and targeted feedback. These are some of the most engaging and well-planned resources you can find anywhere—and remember, they cost you nothing and are available for use by both you and your students.

Accessing SAS. Logon to CIITS, and find the SAS link at the bottom of the homepage. *(You will be required to set up a separate account for SAS. Once you set up an account, you will be given login information for your students to use. See below.)*

Once you login, you can search for resources for whatever subject/topic you need.

SAS and ELA. Audio and video materials enhance reading comprehension and writing (essay organization, punctuation, sentence structure, etc.). In addition, the award-winning "Writing Reviser" helps students develop judgment in evaluating their own writing skills. (Check out a demo of Writing Reviser at: http://www.sas.com/resources/demos/curriculum_pathways/writingreviser/writingreviser.html.) At this time there are 238 resources, and one example is "Exploring Poetry about Sports." This interactive requires students to read and respond to three poems about sports. See Appendix A for more information about this sample.

SAS and Mathematics. The math component of SAS helps students visualize key concepts and practice skills with interactive features, animations, and automatic feedback. One very significant offering in this area is a complete Algebra 1 course. This course, based on CCSS, can be used as a stand-alone course, or teachers can use components as desired. *(Plans call for other courses to be developed.)* At present time there are 249 resources available, and Appendix A shows an example of one titled "Basic Probability."

SAS and Science. At present time, there are 210 resources available for use in science classes. Appendix A gives you an example of one such resource entitled "Fetal Development." Virtual labs and interactive materials help students understand concepts at all levels of investigation.

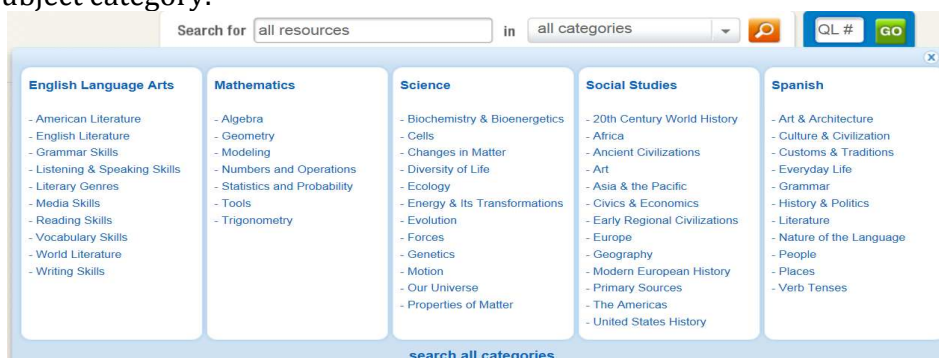

SAS and Social Studies.

The social studies component currently lists 266 resources, including the one on "World War II: Japanese Internment" that is highlighted for you in Appendix A. The social studies part of SAS utilizes a case studies approach that uses both audio

and video to encourage critical thinking. Interactive tools are included to help students communicate their learning.

SAS and Spanish. This area immerses students in Spanish through a cultural context, and reading, listening, and writing skills are targeted. To date there are 127 resources available for teaching/learning Spanish. The sample provided in Appendix A is “El Castellano: Understanding parts of speech.”

The resources in SAS reference both state standards and Common Core State Standards (where available). Each subject area is subdivided as illustrated below. See Appendix B (SASResources) for a detailed listing of the resources available in each subject category.

SAS Training for Teachers. In addition to resources that can be used in the teaching of classes, SAS also provides professional development opportunities for educators. The PD options include:

- **Integration Support.** This section helps you learn about SAS Curriculum Pathways and how you can use the resources to meet your needs. Topics in this section include: Tips & Tricks, Plan Books, Results in the Classroom, etc.
- **Video Library.** There are a variety of videos that teach about product features, integration methods, and coordinator tasks. Some of the topics include: SAS Overview, Searching for Resources, Lesson Guides, Sample Unit Plans, Integrating into Science Classes, etc.
- **PD Options.** This section provides ways for you to expand your knowledge about SAS through webinars, on-site training sessions, or online PD courses. Some examples of offerings include:
 - Beginning to Teach with SAS Curriculum Pathways (online; possible 10 hours of PD credit; available August-May)
 - Building Unit Plans with SAS (online; 22 possible hours credit; available year-round)
 - Transforming Instruction with SAS (online; 25 possible hours of PD credit; available August May-June)
- **Best Practices.** This is a part of SAS where you can describe your own integration strategies, learn how other educators are using resources, and exchange comments and best practices.

Appendix A: Samples

Below you will find sample resources from each of the content areas. Keep in mind that each resource comes with a lesson plan, connections to standards, and all materials needed (videos, handouts, scoring guides, etc.).

ELA

Exploring Poetry about Sports | QL #1365

Lesson Guide

Estimated Time to Complete

More than one class period

Objectives

Students will

- Make predictions based on a poem's title, the poet's biography, and an image associated with the poem
- Read and listen to three poems about sports by Michael S. Parker, Robert Francis, and Tim McBride
- Enhance poetry reading skills with an audio-visual guide
- Build comprehension through audio, video, vocabulary, and interpretive aids
- Identify key images, details, and themes
- Apply learning by creating notes on key images, details, and themes

Assessment

Students will be prompted to enter responses throughout the lesson. The [Scoring Guide](#) provides a means of evaluating student responses to the main idea questions (located in the Analyze section for each poem).

Students may save, print, or e-mail all work they have entered. Remind students to select Save, Print, E-mail before closing their browser so they do not lose their work.

Teacher Materials

[Scoring Guide](#)

Mathematics

Basic Probability | QL #1400

Lesson Guide

Estimated Time to Complete

One class period

Objectives

- Determine the probability of an event
- Determine the probability of two or more independent events

Assessment

Students take a short, **online** quiz at the end of the tutorial. Feedback is provided until all answers are correct. Upon successful completion, students receive a confirmation that they can save, print, or e-mail.

Teacher Materials

For an offline version of the quiz, see:

[Quiz](#) (blank)

[Quiz](#) (answers)

Suggestions

- Headphones
If student computers have speakers, provide headsets.
- Captions
If sound or headsets are not available, ask students to use the captions button available with the audio controls.
- Projection
For whole-class listening and viewing, project the tutorial.

Science

Fetal Development | QL #1283

Lesson Guide

Estimated Time to Complete

One class period

Objectives

- Identify the changes that occur in the developing embryo/fetus as pregnancy progresses
- Recognize why Weeks 4-8 (the second month of development) mark a particularly crucial period for the embryo

Assessment

Students take a short, **online** quiz at the end of the tutorial. Feedback is provided until all answers are correct. Upon successful completion, students receive a confirmation that they can save, print, or e-mail.

Teacher Materials

For an offline version of the quiz, see:

[Quiz \(blank\)](#)

[Quiz \(answers\)](#)

Suggestions

- Headphones
If student computers have speakers, provide headsets.
- Captions
If sound or headsets are not available, ask students to use the captions button available with the audio controls.
- Projection
For whole-class listening and viewing, project the tutorial.
- Transcript
Use the [transcript](#) for an offline review of the audio content.

Social Studies

World War II: Japanese Internment | QL #37

Lesson Guide

Estimated Time to Complete

More than one class period

Objectives

The student will

- Activate and build background knowledge about Japanese immigrants in America, America's entry into World War II, and the aftermath of the Pearl Harbor attack
- Analyze the relevant primary-source documents and identify arguments with varying points of view
- Evaluate the arguments for and against placing Japanese-Americans in internment camps

Assessment

The [Scoring Guide](#) provides criteria for evaluating the Document Analyzer chart and a follow-up assignment (written essay, in-class debate, or oral presentation).

The Wrap-Up

- Reviews Roosevelt's 1942 decision to intern Japanese-Americans
- Discusses the forced removal of Japanese-Americans from the west coast and their lives in camps located in California, Colorado, Idaho, Utah, and Wyoming.
- Describes the valiant service of Japanese-Americans during World War II, particularly by the 442nd Regimental Combat Team
- Traces the internment story from the closure of the camps in 1944/45 through the decision of congress in 1988 to provide restitution to each camp survivor and the official apology by the President of the United States
- Offers questions for further discussion

Teacher Materials

Spanish

El Castellano: Understanding parts of speech | QL #1237

Lesson Guide

Estimated Time to Complete

More than one class period

Objectives

The student will

Level 1

- Identify the proper use of articles, nouns, and pronouns
- Review vocabulary
- Answer grammatical questions in context
- Recall specific information from a Spanish text and audio segment in order to answer comprehension questions
- Create a short written response to demonstrate understanding of certain parts of speech

Level 2

- Identify the proper use of articles, nouns, pronouns and adjectives
- Review vocabulary
- Answer grammatical questions in context

- Recall specific information from a Spanish text and audio segment in order to answer comprehension questions
- Create a short written response to demonstrate understanding of certain parts of speech

Level 3

- Identify the proper use of articles, nouns, pronouns and adjectives, compound tenses and mood
- Review vocabulary
- Answer grammatical questions in context
- Recall specific information from a Spanish text and audio segment in order to answer comprehension questions
- Create a short written response to demonstrate understanding of certain parts of speech

Assessment

Preparación and Información provide immediate feedback as students respond to questions. Formative assessment is used in Información, which allows students to modify an incorrect response. The Criterio in Situación allows students to evaluate their written work.

Criterio and a level-appropriate Rubric assist the teacher in evaluating student written work. The final writing assignment may also be used for an oral presentation.

The question sets from Información are printable and may be used to assess use of the grammar point and reading comprehension.

Teacher Materials
