

# CCS Technology Selections.....All projects will be considered STLP

## APPETIZERS

Are you a novice or beginner in the area of technology and you want to start out light? Here are a few items from the TRT "kitchen" to get you started—

### Desktop Publishing

Brochures, flyers, newsletters, cards, banners, calendars, business cards

### Student E-mail

E-pals, homework hot line, collaborative writing, questions of the week

### Using Graphics

Inserting clip art and pictures, rotating and resizing pictures

### Equipment Training

Use of digital camera, LCD projector, video camera, software packages, web cam

### Offer Resource Links & Sample Activities

Links to sites that can be helpful to you in your classroom

### Lesson Planner—Unit of Study

Access the new online unit of study and daily class planner. Use these applications for organizing your curriculum. Let your parents see what your plans are for the week and or year.

## ENTREES

Are you an experienced technology user and want something with a little more substance? Here are some of the "meatier" choices we have to offer—

### IMovie/Movie Maker Digital Storytelling

Bring student's writing to life using simple video and audio software while creating authentic purposes and expand the writing process with some pizzazz!!

### Riverdeep

Interactive learning environment that promotes reading and mathematics

### Class Web Pages

Homework pages, recommended links, welcome messages, communication tools

### Unit Databases

Creating a research tool that generates a lot of information? Let's figure out a way to manage that information and keep it accessible and useful to your students

### PowerPoint Presentations

With so many ways to share information with your students, we'll help you find the best option for your class.

### Read & Write Gold

For students that need help with text (audible text reader, word prediction, spelling, pronunciation tutor, Internet fact finder

### Creating FrontPage Web Pages

Designing, publishing, and maintaining web pages

### Clay Animation

Creating "cartoon" style movies using digital photography and clay models

## SPECIALS

Our TRT "chefs" will work with you to create a special "dish", even if it is not on the menu—

### Your Technology Idea

We will help bring your technology idea from idea to reality. Contact us and we'll help you find the solution to your technology needs.

### Rebecca's Specialty

Desktop publishing, using graphics, resource recommendations, technology integration

### Heather's Specialty
